

AUTOMATION FAIR PARTNER BOOTH SOLUTION SHOWCASE

Welcome to the Automation Fair Partner Booth Solution Showcase! This year's event brings together an impressive lineup of industry-leading partners, each presenting cutting-edge innovations that are shaping the future of industrial automation. From autonomous mobile robots and smart enclosures to advanced wiring systems, collaborative robotics, and power management solutions, these partners are driving efficiency, safety, and digital transformation across manufacturing and infrastructure. Explore live demos, keynote sessions, and interactive presentations that spotlight the technologies powering tomorrow's connected enterprises.

DOOSON ROBOTICS AMERICAS #747

Key Products:

- H-SERIES Collaborative Robot
- M-SERIES Collaborative Robot
- P-SERIES Collaborative Robot
- A-SERIES Collaborative Robot
- E-SERIES Collaborative Robot

GRACE TECHNOLOGIES #2015

Key Products:

- Condition Monitoring
- Industrial Communications and Communication Devices
- Machine Safety
- Measurement & Test Tools
- Wiring & Connection Devices

HUBBELL WIRING DEVICES - #1538

Key Products:

- NEW [Watertight Devices](#)
- [LineSafe™ Breakaway Connector](#) *(demo in booth)*
- PowerGain™ Multi-Conductor Connector *(2026 launch)*
- [Motor Disconnect with LED Indicators](#)

- [EdgeConnect™ Wiring Devices \(demo in booth\)](#)
- [Kellems Strain Relief Grips](#)
- [Pin & Sleeve Devices](#)
- [Linkosity® Wiring Systems](#)
- [Panel-Tran Zone Power Centers](#)
- [PQS™ Active Harmonic Filter](#)
- [High Resistance Grounding Resistors](#)

LITTELFUSE - #1737

Key Products:

- [UL Fuses](#)
- [Panel Mount Fuse Holders](#)
- [High Speed Fuses](#)
- [SB5000](#)
- [SB4000](#)
- [Protection Relays and Controls](#)
- [Arc Flash Relays](#)
- [Neutral Ground Resistors \(NGRs\)](#)
- [Liquid Level Relays](#)
- [Seal Leak Protection Relays](#)

NVENT HOFFMAN - #929

Featured Products:

- Enclosures populated with climate control and accessories tailored for the needs of key applications including Industrial Automation, Sanitary Environments, Harsh Environments and Infrastructure.
- Design to Manufacturing platform including DTM software, automation machines, Connected Worker software and ergonomic solutions.

New Innovations:

- **Chillers:** Floor-standing and side-mount chiller options that are configurable and available in a wide range of capacities to provide flexibility to meet precise cooling requirements.
- **Air Conditioners:** Robust platform for indoor, outdoor, and harsh environments ranging from 800 to 20,000 BTU/hr for reliable cooling in any environment.
- **Heat Exchangers:** Air-to-Air or Air-to-Water options available to minimize downtime and provide reliable operation in any application.

- **Ergonomic Tilt Table:** Ergonomic material handling solutions to minimize the risk of injuries and streamline.

Booth Demonstrations:

- **DTM Software:** See how to simplify design, capture and deploy knowledge and maximize employees' capabilities to accelerate profitable growth.
- **Enclosure Modification Machine:** Get an up-close look at the automation of drilling, tapping and milling of enclosures holes and cut-outs, increasing productivity and quality.
- **Personal Wiring Machine:** Learn how to accelerate panel production without compromising quality by using a personal wiring machine for wire automation, cutting, stripping, crimping, and labeling with unmatched speed.
- **Ergonomic Tilt Table:** Observe how workers can limit unnecessary movements and minimize exertion, making it easier and more comfortable for assembling and wiring electrical panels.

Booth Presentations:

- Connecting Engineering and Manufacturing to Drive Digital Transformation
- Enclosure Accessories You Didn't Know You Needed
- Protect your People and your Business with Safety-Focused Workplace Practices
- Creating a Seamless Microgrid Ecosystem to Support Energy Infrastructure projects
- Modular Enclosures for Flexible Automation Architectures
- Reducing Failures and Heat Load in Solar Combiner Box Installations
- Solving Downtime and Compliance Issues with Hygienic Enclosures in F&B Automation
- Benefits of Liquid Cooling in Industrial Applications
- Combatting Corrosion and Downtime in Water & Wastewater Control Systems

OTTO BY ROCKWELL AUTOMATION, HALL F2, LEVEL 3

Ready to level up? Stop by the OTTO booth and discover how autonomous mobile robots (AMRs) deliver unmatched efficiency and precision both independently and through seamless integrations with your automation equipment and digital systems.

See **autonomous in action at the live connected factory** through a non-stop, integrated demonstration of OTTO AMRs and OTTO Fleet Manager working alongside Rockwell solutions.

PANDUIT - #1925

Key products:

- [Control Panel Solutions](#)
- [VeriSafe™](#)
- [PXE™ Mobile Printers](#)

- [Fault Managed Power Systems \(FMPS\)](#)
- [RapidID™ Network Mapping System](#)
- [TrueEdge™ Vertical Wall Mount Enclosures](#)
- [Single Pair Ethernet \(SPE\)](#)
- [MDC \(Micro Data Center\)](#)
- [IDF \(Industrial Distribution Frame\)](#)

SOUTHWIRE - #729

This year Southwire will highlight:

- **Keynote:** Electrification of America: Sustainable manufacturing and the data-driven supply chain.
- **Panel:** Supply Chain Transparency and Traceability – value chain differentiation built on Copper Mark
- **Live Booth Demos:**
 - Comparison of two VFD waveforms using traditional and VFD wire types and terminations
 - Food and Beverage wet/tanks featuring GFCI and cables for sanitary production areas.
 - Demo of power feeder cable that saves time/installation costs for electrical contractors; attractive to Datacenter, BESS, or eHouse OEMs with high power density in small footprints.
 - Single Pair Ethernet (SPE) circuit with signal propagation for APL and PoDL applications.
- **Additional Resources:**

 - <https://www.youtube.com/watch?v=d02NKOvCHmU>

WITTENSTEIN - #1525

Key Products:

- [Servo gearboxes](#)
- [Gearboxes with cynapse® and Smart Services](#)
- [Cyber Motor](#)
- [Galaxie® Gearbox](#)
- [cyber® iTAS® system 2](#)
