

A man with a beard and short hair, wearing a blue polo shirt, is smiling and leaning against a green utility cabinet. The cabinet has the number '300' on it. The background is a blurred green field.

# THAT'S RIGHT... PARTS ON DEMAND.

Everything you need to succeed // [www.vanmeterinc.com](http://www.vanmeterinc.com)

CRAIG R., EMPLOYEE-OWNER

# VAN METER HAS EVERYTHING YOU NEED ON DEMAND FOR MANAGING **MEDIUM AND HIGH VOLTAGE CABLE CONNECTIONS.**

We expect the unexpected when it comes to distribution system emergencies. Our in-stock inventory includes separable elbow connectors, cable joints, terminations and many other cable accessory components needed to connect, ground, splice, terminate and protect your underground power distribution systems.

## LOADBREAK AND DEADBREAK ELBOWS

At Van Meter, separable elbow connectors and their related accessories are available in 200 Amp loadbreak and 600 Amp deadbreak styles. The products are rated for padmount, subsurface, vault, indoor, outdoor and other applications. The elbows can be easily engaged or separated to provide a convenient method to connect or disconnect cable and equipment to your distribution system.

## TERMINATIONS, SPLICES AND TOOLS

They may seem like just the finishing touches, but terminations and splices are critical components of any electrical system. Van Meter stocks indoor and outdoor terminations in all sizes. Tell us about your cable specification and we'll custom kit a termination package to meet your needs – even provide the tools you need to complete the job. Our dedicated contractor services team is also available to provide technical and specification support and/or conduct accredited jobsite termination training.

## IN-STOCK INVENTORY – CUSTOM KITTING – COMPETITIVE PRICING
